

THE OFFICIAL UK PUZZLE CLUB

We are **really** excited to have in stock some of the new puzzles from Spiele Schmidt. We are often asked for puzzles by different manufacturers and hope you welcome this chance to try something different – great images and great quality. You will not be disappointed. We have chosen a small selection for you to start and as always we would love to hear your views on them before we embark on a larger range.

Schmidt Spiele

Schmidt Spiele is Germany's second largest Jigsaw puzzle manufacturer (behind Ravensburger). Their hallmark is exceptionally high quality jigsaws, laser cut linen marked paper on 1.9mm blue board which is then laminated. Their collection of captivating images includes licensed images from our well-known and loved whimsical artist Colin Thompson, surrealist images from Polish artist Jacek Yerka, film memories from Renato Casaro, and images of fantasy and imagination from **Ciro Marchetti**. Their unlicensed range includes maps, animals, ships and beautiful images of popular landmarks at home and abroad.

Schmidt release new licensed and unlicensed images twice a year to keep their collection fresh and up to the minute.

Artist Biographies

Renato Casaro

Born in Northern Italy, Renato Casaro is one of the fortunate few - he turned his hobby into his career. He began as a painter of film posters and over the years became one of the most sought after talents in his field worldwide. Many of his film posters are a part of film history; they are classics and collectors' items. His 100 years of Film puzzle was the puzzle completed in this year's British Jigsaw Championship and a self-portrait of the artist can be found hidden in the image.

Jacek Yerka

Born in Poland where he later studied fine art and graphic design, Jacek Yerka was pressured by his tutors to avoid detail and realism in favour of the simpler fashion of the times. Luckily for puzzle fans he stuck with the Flemish technique that typifies his work. His subject matter ranges from odd beasts to whimsical landscapes incorporating extraordinary architecture and include images from his childhood, such as his grandmother's kitchen. He began working full-time as an artist in 1980.

Ciro Marchetti

Following a career in advertising and graphic design, **Ciro Marchetti** decided to sell his agency and focus on his own artwork rather than client projects and deadlines. The majority of his art is produced in Photoshop using a graphics tablet and pen and he has won a number of awards for his work.

READERS LETTERS

We have received an email in response to Margaret Clarke's letter last month regarding the Master Craftsmen puzzles

Dear Puzzle Club, I was interested to see your latest UK Puzzle Club leaflet; especially the reference to the Master Craftsman/Gold Box puzzles. I developed this range back in the 1980s when I worked for Michael Stanfield Limited. So if the puzzles your customer is enquiring about are called Master Craftsman, they are definitely from the late 1980s/early 1990s. Michael Stanfield continued to manufacture this range up until 1993.

Sarah Stevens, Ravensburger Puzzles

With regard to the old puzzles – I have several wooden puzzles cut to odd shapes which I first completed as a boy about 60 years ago. I believe that they had been passed on to my mother so can safely say that they are pre 1940 and probably much older. The original boxes have long since disappeared but I do have one puzzle in its original box. It is 'The Heart of London', No. 6 in a series by Chichester Jig-saw map Puzzles. I'm not sure of its age but my guess would be late 1940's. It almost counts as a 'dissected map' but it sure isn't 250 years old!

By email from John Underwood, Billings Hurst

Thank you for your email – it is great to hear that you still have such wonderful keepsakes. We think your dating is spot on.

**FUN
FACT**

In the late 19th century an average wooden jigsaw cost over £1.00 – more than most people earned in a week!

JIG'S CORNER

On the last Bank Holiday weekend Mark and Juliet visited a Jigsaw festival at St Martin's Church in Brighouse, Yorkshire. They were amazed to see such a vast display of completed Jigsaws on show. A big thank you to Alan Sparks for showing them around and explaining about the huge amount of work involved in organising such a festival. Alan explained that their success is due to the 30+ church and community members that all come together to help make up the jigsaws during the winter months. There were over 1000 completed puzzles for sale and more than 650 people attended over the 4 days. It is a great fund-raiser, but more importantly a great community event. And they said a big thank you for the amazing food they had in the cafe before driving home! We would all recommend visiting a festival if there is one in your area; If you do know of any near you let us know – it's a great place to grab a bargain and meet like-minded jigsaw enthusiasts.

I'm really looking forward to getting the new Schmidt puzzles in stock and I can't wait to see if I can beat Sarah Mills' time of 1 hour 58 minutes to complete the 100 Years of Film Puzzle, why not give it a go yourself!
